THE UNIVEX STANDARD

Means you will receive the highest quality product and total customer satisfaction.

01 NEW PRODUCTS

Our new line of high quality food service products include, Hand Mixers, Pasta Machine, Panini Presses, and Vacuum Packers.

04 PLANETARY MIXERS

Renowned for their unique variable-speed drive system, oversized transmission gears, and low cost of ownership, Univex planetary mixers range from our compact, 12-quart countertop model to the SRM80+ floor model, able to mix 80 pounds of dough at one time.

07 SPIRAL MIXERS

Silverline and Greenline spiral mixers are built to perform under even the most demanding conditions, kneading small and large quantities of dough perfectly every time. With service requirements so low, they are practically maintenance-free!

09 SPIRAL BOWL LIFTERS

Univex Spiral Bowl Lifters put the power where you need it, find yours right here.

10 PIZZA OVENS

Our Rotating Stone Hearth Pizza Dome Oven guarantees superior heat containment and gradual heat release.

12 DOUGH PROCESSORS

Dough processing equipment includes the Sprizza (pizza spinner) for perfectly spun pizza dough every time, dough dividers/rounders, dough sheeters and the powerful and versatile power drive.

NEW AND IMPROVED PREP EQUIPMENT PRODUCTS

These new additions to our product suite will make short work of your smaller kitchen projects.

We are always on the lookout for innovative ways to improve our product offering and better serve our customers' needs. Extensive research, including valuable customer feedback, paved the way for these high quality food service products.

Hand Mixers
Vacuum Packers
Panini Presses
Pasta Machine

^ Hand Mixer

POWERFUL

Univex Hand Mixers are a powerful tool with interchangeable shafts, making them an ideal choice for preparing mixtures, soups, and sauces.

HAND MIXERS

We have two powerful hand Mixers for you to choose from. The quick coupling Cyclone is powered by three different motors with interchangeable 10" and 14" shafts. Available in several sizes, its ergonomic handle and lightweight fiberglass body help reduce muscle strain and fatigue. An ideal choice for preparing mixtures, soups, and sauces, the Cyclone liquefies soups and purees fruits and vegetables directly in the cooking pot using cutlery steel knives. A safety-protected continuous blending switch offers convenience and peace of mind. The Vortex, our most powerful quick coupling device, builds upon all of the Cyclone's functionality with more horsepower and longer shafts (14" or 18").

^ UPasta Machine

PASTA MACHINE

Homemade pasta is simple to prepare with our countertop UPasta Machine. Equipped with a planetary/spiral mixer for fast, easy dough mixing, an easy-to-use electronic control system and a thick transparent Plexiglass lid for optimal viewing. Removable bowl and spiral make for quick, easy clean up. A large selection of pasta die plates are available for you to choose from.

^ Panini Press

PANINI PRESSES

Grilling has never been easier. Our Panini Presses are ideal for sandwiches of all different sizes and thicknesses as well as meat, fish, eggs and vegetables. They come in a variety of sizes with a ribbed or flat surface made from non-stick, ceramic-coated cast iron for easy cleaning and extended unit life. With perfect thermal conductivity for fast, even heat distribution, and a large cooking surface, these presses are ideally-suited to high volume operations. The upper plate is self-balancing and heats up to 572° F. Designed with long-life cast iron plates to ensure hygiene and are resistant to oxidation.

VACUUM PACKERS

Designed with an intuitive electronic control system, featuring 8 savable settings, a pump meter, oil pre-heat, and cleaning cycle. There is also an oil change warning light, 6 selectable languages, and an adjustable automatic vacuum percentage. The vacuum packer is fully equipped with gas injection and multiple thermal label printing options. Thick transparent Plexiglass lid makes for easy viewing and easy cleaning. Automatic cover lift operated by pneumatic pistons.

^ Vacuum Packer

4

LOOKING FOR THE HIGHEST QUALITY PIZZA EQUIPMENT?

Look no further. A planetary mixer is a kitchen's most versatile piece of equipment... and Univex Planetary Mixers are built to deliver excellence time and time again.

Our new SRM60+PM is designed specifically with the pizza maker in mind. Manufactured with a larger, heavy duty gear drive transmission and reinforced frame to support high volume dough production and utilizing our proven variable speed, shift on the fly control through the available two speeds, we deliver appropriate torque control where needed without sacrificing versatility.

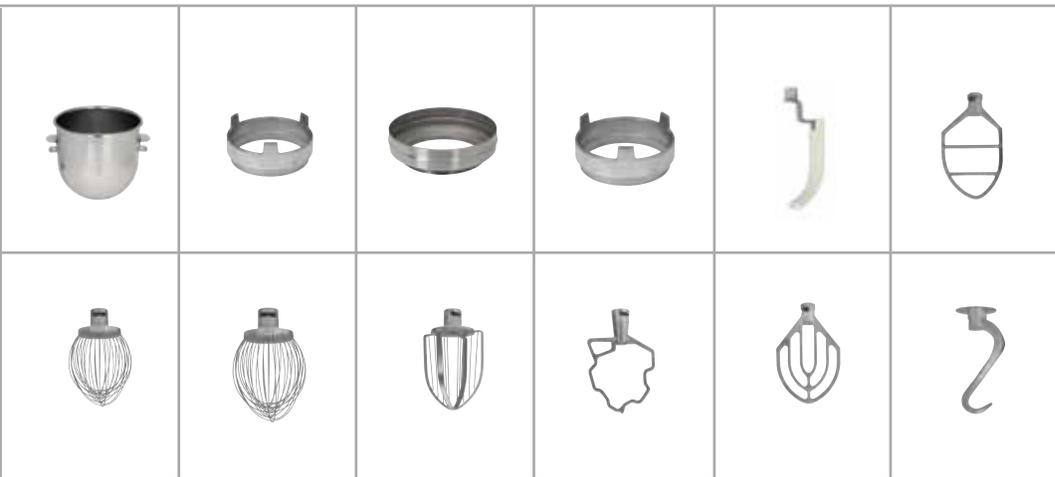

^ SRM60+PM

PERFORMANCE

Univex planetary mixers range in size from our SRM12 12-quart countertop mixer, ideal for small batch mixing needs, to the SRM80+ 80-quart floor model mixers, designed for bakery, high-volume pizza, and institutional operations.

High-volume pizzerias swear by Univex quality and performance when it comes to processing large amounts of dough!

- SS Bowl
- Bowl Truck Adapter
- Splash/Ext. Ring
- Bowl Truck
- Pastry Knife
- Bowl Scraper
- SS Wire Whip
- Heavy-Duty SS Wire Whip
- Four-Wing Whip
- Sweet Dough Beater
- Batter Beater
- Spiral Dough Hook

Our planetary mixers feature a continuous variable speed transmission, or CVT drive, that allows you to change speeds while mixer is running. The CVT drive also lets you select from four standard operating speeds or any speed in between, so you can choose the speed that is perfect for your recipes.

STANDARD FEATURES

All our models include a durable, rust-resistant stainless-steel bowl, a #12 hub for adding food-processing attachments, an ingredient chute for easily adding ingredients to the bowl while the mixer is running, and an automatic bowl scraper that can be attached to the agitator that automatically scrapes down the sides of the bowl during mixing. Our 30-quart and larger models also come with a built-in automatic timer. The 60-quart and 80-quart mixers now come standard with our power bowl lift, which automatically raises and lowers the bowl into place for mixing.

MIXER OPTIONS & ACCESSORIES

The key to Univex versatility comes from our wide range of options and accessories. Engineered for optimum performance, these implements expand and enhance the utility of your equipment. Optional downsized bowls and attachments as well as bowl truck or dolly (intended to facilitate moving loaded bowls) are available for most of our mixers.

PLANETARY MIXER CAPACITY CHART

The following chart will help you determine the correct Univex Planetary Mixer model for your application.

Use this formula to calculate the absorption ratio of your dough:

% Absorption Ratio (% AR) = water weight (8.33 lbs./gallon) divided by flour weight.

CAPACITIES		AGITATOR	SRM12+	SRM20+ SRMF20	SRM30+ SRM40+	SRM60+	SRM60+PM	SRM80+

STURDY CONSTRUCTION

These professional-grade spiral mixers are ideally suited to high volume pizzerias, bakery shops and industrial settings

SILVERLINE MIXERS WITH FIXED BOWL

Kneads small and large quantities of dough perfectly every time. All models feature dual motors (one for spiral, one for bowl) as well as solid, sturdy construction, and robust power reserve. Compact design equals minimum counter space requirements for maximum output. Our Silverline Mixer ranges from 50 kg of finished dough all the way to 280 kg.

GREENLINE MIXERS

Our super-efficient Greenline spiral mixers, GL50, GL80 and GL120, offer energy savings of approximately 25% per cycle. They feature a stainless-steel bowl, spiral dough hook and shaft, control panel with separate low- and high-speed timers, and reverse bowl rotation switch. Greenline mixers are wheel-mounted for easy moving.

^ Greenline Mixer GL80

A key selector enables manual operation if desired. The bowl symbol with selector allows brief inversion of the bowl and spiral to facilitate pre-mixing in 1st speed and enabling easier dough removal.

^ Silverline Mixer SL80/SL120/SL50

SILVERLINE MIXERS WITH REMOVABLE BOWL

Designed for industrial bakeries and pizza, these sturdy, reliable mixers feature dual motors and control panel with rubber gaskets. The bowl is locked by a high-powered electromagnetic system for reducing noise and wear during kneading. Available in models suitable for 80 to 300 kg of dough.

[^] Silverline Mixer with Removable Bowl

Reliability – Silverline mixers are built to perform under even the most demanding conditions, day in and day out, with service requirements so low they are practically maintenance-free.

WHEN YOU NEED A LIFT

Univex spiral bowl lifters put the power where you need it, find yours right here.

ADJUSTABLE SPIRAL BOWL LIFTER

Lifts and discharges wheeled bowls at pre-set heights from min. 2.2 m to max 3.8 m, for use with SL80RB - SL300RB. Prodigiously powerful yet remarkably compact, easily transported and simple to install. Less than 2.2 m tall when closed, making it well suited to trucks and containers. Easily fits into standard elevators with 2500 kg capacity.

Discharging structure features two, perfectly balanced pistons. Device mounted on stand with support and fixing legs adaptable to requirements of lifter. Inside the support, an oversized hydraulic control unit facilitates continuous use. Trolley operation area protected by ring beneath bowl itself. Operator can close unit in box with a safety gate to secure potential danger zone. Max overturnable weight 800 kg.

SPIRAL BOWL LIFTER

Tipper for spiral mixers equipped with removable, wheeled bowls. Sturdy, electro-welded, steel structure with slide guides and trolley. Simple, reliable construction designed to resemble premier lift trucks. Lifting and unloading happen in rapid succession thanks to powerful hydraulic piston and double chain. Available in three different discharge heights: 1.3 mt, 1.9 mt and 2.6 mt, for use with SL80RB - SL200RB. Maximum lift is 400 kg.

^ Adjustable Spiral Bowl Lifter

^ Spiral Bowl Lifter

^ Twin Piston Spiral Bowl Lifter

TWIN PISTON SPIRAL BOWL LIFTER

Functionally identical spiral bowl lifter with this difference, lifting is assigned to dedicated piston with double-raising chain while turning over is assigned to a sturdy pair of independent pistons. Work area, sheltered by safety protection, features ergonomically positioned, easy-to-use control system. Perforated stainless steel supporting legs. Available in two discharge heights: 1.9 mt, 2.6 mt., for use with SL160RB - SL300RB (Special measurements can be built on request.) Maximum lift is 600 kg.

SUPERIOR

Our Rotating Stone Hearth Pizza Dome Oven guarantees even cooking throughout your pizza as well as superior heat containment and gradual heat release.

ROTANTE PIZZA DOME OVEN

The only rotating oven constructed entirely of refractory bricks. Hand-built brick by brick, cooking floor and dome.

No more interruptions during work

Our digital cooking programs; the Univex Smart Chef synchronizes temperature, timing, direction and rotation speed, all through an intuitive and easy to use touch screen interface.

^ Rotante Stone Hearth Pizza Dome Oven

^ Stone Hearth Pizza Dome Oven - Left: Pentagonal, Right: Round Dome

STONE HEARTH PIZZA DOME OVEN

DOME — Constructed from whole refractory bricks, furnace baked, with high alumina content, immersed in refractory cement casting. Resistant to 1200°C. High alumina content increases heat retention. Ovens turned off in the evening still warm next day. Bricks have sufficient resistance to double oven lifespan.

SURFACE — The surface of refractory borders are 6 cm deep to guarantee superior heat containment and gradual heat release. Large baking surface always stays warm: refractory bricks absorb sufficient heat to cook pizzas continuously, without need for pauses in between baking. A surface this deep offers improved resistance and prevents borders from moving, *which could create uneven levels after long-term use.*

INSULATORS — Seven layers of insulation assure efficiency. Ecological ceramic fiber, high-density cellular concrete, and expanded clay combine to create double the insulation of traditional ovens. Optimal insulation guarantees no waste: all heat produced by oven stays in cooking chamber, oven sides remain cool.

CUSTOM OPTIONS

Create a distinct look with visual impact. Choose from a diverse array of custom colors and materials:

Red brick

Yellow brick

10x10 inch tiles

Marble

Metal leaves

Mosaic tile

^ Stone Hearth Pizza Dome Oven - Round

PERFECTLY SPUN

This bench model cold-spinning system creates perfectly spun pizza dough every time, with the kind of consistent quality you thought you could only get from the hands of an expert.

SPRIZZA (PIZZA SPINNER)

Our one-of-a-kind dough spinner produces perfectly spun pizza dough in seconds. The Sprizza does not press your dough, it spreads it with a patented micro-rolling system, essentially replicating a product previously available exclusively by traditional hand-tossing. With the ability to adjust and set the dough thickness, and the versatility of managing your desired crust height, the Sprizza is designed to deliver the consistency you demand and the efficiency you deserve.

^ Sprizza SPZ40/SPZ50

Hand tossing pizza is an art, but Univex has it down to a science! We know that quality is your passion and that consistency and efficiency are a requirement. Sprizza is like having your very own expert pizza-maker in-house.

DR 11/14 DOUGH DIVIDER-ROUNDER

This semi-automatic dough divider-rounder model is able to cut and round 600-800 pieces of dough per hour. The portions can weigh from 3 to 11 oz. with the cutting group dividing into 14 sections, and from 11 to 23 oz. with the cutting group dividing into 11 sections. The machine is extremely easy to use, compact and very practical.

^ DR11/14 Divider/Rounder

T50 VERTICAL DOUGH SHEETER

The vertical sheeter can do anything a reverse table sheeter can do, in settings where space is at a premium. Both practical and easy to use, its unmatched versatility allows you to sheet pizza dough, square pan pizza, fondant, puff pastry and fresh pasta with equal effectiveness.

^ T50 Vertical Dough Sheeter

POWER DRIVES

Don't get bogged down with tough loads. Heavy-duty Univex PrepMate™ Power Drive Units are designed to power our VS9 Vegetable Slicer, VS9H Shredder/Grater, and ALMFC 12 Meat Grinder through thick and thin. PrepMate power drives may also be purchased in packages that include the VS9 Vegetable Slicer or VS9H Shredder/Grater. An extended-leg version for accommodating deeper food receptacles and higher mounding is available as well.

Our comprehensive line of elegantly designed, proven equipment offers dependable solutions for all of your Pizza needs.
